

UNITED STATES INTELLIGENCE BOARD

OFFICE OF THE EXECUTIVE SECRETARY

3 June 1965

Dr. William R. Rambo

Dear Dr. Rambo:

The United States Intelligence Board has requested one of its committees to prepare a cost-effectiveness study on certain existing and planned electronic collection systems relating it to the Board's approved requirements. The Board desires to have the assistance of experts from outside the Government in the preparation of this study.

The Director of Central Intelligence as Chairman of the Board has requested you to serve as one of the outside experts. I am advised that in informal discussions of this matter you have indicated your willingness to do so. The other experts being requested to serve are Dr. William J. Perry of the Electronics Signals Laboratory, Inc., and Dr. Leonard S. Sheingold of Sylvania Electronic Systems, Inc., who have also indicated their willingness to help.

It is anticipated that the study may take on the order of two months. Arrangements will be made to have the necessary consultations occur at times suited to your convenience for brief periods on several occasions during the two months.

The Chairman of the committee making the study is [redacted] who will insure that the necessary arrangements with you are concluded to our mutual satisfaction.

On behalf of the Chairman and the Board I wish to thank you for your willingness to participate in this important study.

Dr. Leonard S. Sheingold

Dear Dr. Sheingold:

The United States Intelligence Board has requested one of its committees to prepare a cost-effectiveness study on certain existing and planned electronic collection systems relating it to the Board's approved requirements. The Board desires to have the assistance of experts from outside the Government in the preparation of this study.

The Director of Central Intelligence as Chairman of the Board has requested you to serve as one of the outside experts. I am advised that in informal discussions of this matter you have indicated your willingness to do so. The other experts being requested to serve are Dr. William J. Perry of the Electronics Signals Laboratory, Inc., and Dr. William R. Rambo of the Stanford Electronic Laboratories, Stanford University, who have also indicated their willingness to help.

It is anticipated that the study may take on the order of two months. Arrangements will be made to have the necessary consultations occur at times suited to your convenience for brief periods on several occasions during the two months.

The Chairman of the committee making the study is [redacted] who will insure that the necessary arrangements with you are concluded to our mutual satisfaction.

On behalf of the Chairman and the Board I wish to thank you for your willingness to participate in this important study.
